

1 Day Hydrafacial taining

**1 Day training from 10am to 4pm.training includes;
manuals will be provided by us free.theory and practical training.**

The Hydro Facial Course has been designed for those already trained in facials who are looking to advance their skillset. Hydrafacial is a 6 in 1 facial allowing you to offer these elements individually as well as part of the one treatment. Hydrafacial is a non-invasive skin rejuvenation treatment.

During the Hydro Facial course the device carries out a 6 part regimen for deep cleansing, exfoliating, and skin brightening as well as tightening and lifting the skin. The hydro facial works by stimulating new collagen and elastin. The hydro facial gives the face a more contoured appearance.

1 day	10am-4pm	Training;
-------	----------	-----------

*****Machine not included.**

***Please note: It is the sole responsibility of the candidate to ensure they have the relevant pre requisite qualifications in order to obtain insurance on completion of the Hydra Facial Course.**

Hydradermabrasion is a newer version of the older style of “Microdermabrasion”. Rather than blasting the skin with grit substance like a traditional dermabrasion, hydradermabrasion offers a much gentler approach as it infuses the skin with active exfoliating ingredients to help with your clients specific skin concern.

The Hydrafacial offers hydration and helps to remove congestion and blocked pores, resurfaces the epidermis and helps to plump and brighten the skin. The hydrafacial is a great anti-aging alternative to more invasive procedures as it stimulates new collagen and elastin and has an instant lifting effect on the skin.
